PROFESSIONAL SUMMARY

Computer Engineering graduate from Bahir Dar University with practical experience in software development, IoT systems, database management, networking, and technical support. Skilled in developing web and desktop applications using Python, Django, Java, and database technologies. Experienced in designing embedded systems using ESP32 and integrating hardware with software solutions. Demonstrated leadership through multiple university leadership roles, innovation projects, and large-scale event organization. Passionate about creating technology solutions that improve efficiency and solve real-world problems.

EDUCATION

Bachelor of Science in Computer Engineering

Graduated: 2026

Bahir Dar University – Bahir Dar Institute of Technology (BiT)

Department of Electrical and Computer Engineering | CGPA: 3.57

TECHNICAL SKILLS

Programming:	Python, Java, PostgreSQL, MySQL, HTML/CSS, JavaScript
IoT & Embedded:	ESP32, RFID Systems, Sensor Integration, Edge Impulse AI, TensorFlow Lite, OpenCV
IT & Networking:	Linux, Computer Networking, CCTV Installation, Hardware/Software Maintenance
Web Development:	Django, REST API, Database Design, Microsoft Access
Tools & OS:	Git, GitHub, Arduino IDE, VS Code, Canva, Microsoft Office Suite
Electrical:	Residential Electrical Installation, Electrical Maintenance, Fault Diagnosis

PROFESSIONAL & INTERNSHIP EXPERIENCE

IT & Networking Intern

Bole Subcity Innovation and Technology Development Office

- Supported installation and maintenance of office computer networks serving multiple departments.
- Provided comprehensive technical assistance for office hardware and software systems.
- Developed and deployed an Employee Attendance Management System utilizing Python and Django.

IT & Networking Intern

RIS Technology

- Installed and configured CCTV systems for multiple commercial and office environments.
- Assisted with computer network infrastructure installation and provided hardware/software support.
- Performed systematic troubleshooting and maintenance.

Electrical Installation & Maintenance Technician

- Performed residential electrical wiring, layout planning, and installation of lighting/switches.
- Diagnosed complex electrical faults and executed safety-compliant maintenance procedures.

SELECTED PROJECTS

RFID-Based Smart Self-Checkout System (Final Year Project)

2025–2026

- Developed an IoT-based smart retail system integrating ESP32, RFID, AI, and Django.

- Implemented automated billing, RFID product identification, and AI-based product verification.
- Engineered a Django dashboard for inventory, transactions, digital payments, and live monitoring via REST APIs.
- **Technologies:** ESP32, RFID, Edge Impulse AI, Django, Python, REST API

Employee Attendance Management System (Internship Project)

2025

- Developed a web-based attendance platform featuring QR code clock-ins and location validation.
- Created administrative dashboards for employee monitoring and leave management.
- **Technologies:** Python, Django

Student Union Notice System & Student Voice Bot (Innovation Center Projects)

2026

- Built platforms for digital university announcements and anonymous student feedback management.

LEADERSHIP & COMMUNITY SERVICE

- **President, Graduate Class Committee (2026):** Led graduation preparations, managed communications, logistics, and documentation.
- **President, Innovation Center (2026):** Promoted tech entrepreneurship and supervised student tech projects.
- **Vice President, Electrical and Computer Engineering Association:** Supported technical activities and represented student interests.
- **Vice President, Knowledge and Techno Store (KTS):** Coordinated hardware/software maintenance service teams.
- **Class Representative (5 Years):** Acted as primary liaison between students and faculty.
- **Graphics Designer, Student Union:** Created ID cards, certificates, and event promotional materials.
- **Volunteer Python Programming Instructor:** Taught Python fundamentals and digital literacy to high school students.

CERTIFICATIONS

- **Data Analysis Fundamentals Nanodegree** – Udacity (Five Million Coders Initiative), November 2024
- **Responsive Web Design** – FreeCodeCamp
- **Employability & Job Readiness Skills** – Bahir Dar University
- **Design Thinking & Entrepreneurial Mindset** – Bahir Dar University

AWARDS & ACHIEVEMENTS

- **Winner, STEM Science Fair** – Debre Berhan University (Grade 11) for developing the "ህጽ ገጽ" E-Commerce Platform.
- **Student Leadership:** Held six student leadership positions throughout undergraduate studies, leading academic, innovation, and student engagement initiatives.
- **Event Coordination:** Successfully planned and coordinated university-wide technology, innovation, and student events.
- **Software Systems & Impact:** Developed custom software solutions for educational, organizational, and community institutions.

LANGUAGES

Amharic (Native), English (Professional Working Proficiency)
